Allen Introduces the All-New AW16E Fully Electric Wheel Buggy

February Mon, 2020
Published In Concrete Equipment News

Paragould, Arkansas USA - Allen, a leader in concrete finishing equipment, announced the debut of the all-new 2020 AW16E Fully Electric Wheel Buggy.

The AW16E is the newest wheel buggy in the Allen Engineering lineup and was designed to compete with existing wheel buggies but have a more thoughtful impact on the envrionment. This wheel buggy comes with the best technology available to achieve a rechargable, battery powered machine that is capable of withstanding working conditions. With travel speeds of up to 6 mph and a payload of 2,500 lbs, this new, fully electric wheel buggy is contractor tough and ready to take on anything.

AW16E standard features include:

- Rechargeable 48 volt lithium ion battery
- Long-lasting battery life (up to 6 hours or 4 hours of constant use)
- Travels speeds up to 6 mph for greater job site efficiency
- Bucket capacity of 16 cubic feet with 90º dump angle
- Easy access to charging with standard three-prong industrial power chord

Come see the AW16E alongside other Allen equipment at The ARA Show (previously The Rental Show) in Orlando, FL from February 10 - 12 in Booth #3070.
