Paragould, Arkansas USA - Allen, a leader in concrete finishing equipment, announced the debut of the all-new 2020 RP235 and RP245 Polishing Riders.

The RP235 and RP245 were designed with the high volume concrete polisher in mind. These riding trowels come as designed to achieve high rotor speeds to achieve high torque while polishing, and they also come equipped with special dolly jacks that ensure transportation indoors can be done with ease, as well as allowing for quick change of polishing pads. These designs are also built on our popular edging riding trowel frame to allow contractors to get extremely close to the wall while polishing.

These new products will be exhibited at the World of Concrete show in Las Vegas, NV on Feb. 4-7, 2020.

RP235 standard features include:

- 180 RPM for high-speed burnishing or polishing
- 40 lb Propane Bottle for longer lasting operating hours
- 25 hp Kohler PCH740 Propane Engine
- 7 gallon retardant tank to allow for more watter application to the polishing process
- Two-point, top-mount lifting system
- Four-point tie downs

RP245 standard features include:

- 180 RPM for high-speed burnishing or polishing
- 40 lb Propane Bottle for longer lst operating hours
- 25 hp Kohler PCH740 Propane Engine
- Power steering option for operator comfort

- 7 gallon retardant tank to allow for more water application to the polishing process
- Two-point, top-mount lifting system
- Four-point tie downs
