Allen Introduces the New AT14S Swivel Dump Track Buggy

January Fri, 2017
Published In Concrete Equipment News

Paragould, Arkansas USA - Allen a leader in professional quality site prep and concrete finishing equipment, announced the debut of their newest track buggy. The AT14S is a swivel dump buggy that allows operator to place materials with precision.

The AT14S is the newest buggy in the Allen lineup. It comes equipped with a rugged track drive that will allow it to operate in conditions that wheel barrows and wheel buggies simply cannot. It is also equipped with a swivel buggy that allows the operator to turn the bucket 90º in either direction from center to provide maximum precision while placing materials.
AT14S Swivel Dump Track Buggy

AT14S standard features include:

- 20 hp Honda GX630 Gasoline Engine
- Travels speeds up to 6 mph for greater job site efficiency
- Steel bucket for maximum durability
- 33” Width allows the buggy to fit through tight areas
- Engine cover folds back to provide convenient acces to engine, gas tank, battery and filters

Come see the AT14S alongside other Allen equipment at The Rental Show in Orlando, FL from February 27 - March 1 in Booth #5738.
