Allen Engineering Presents Checks to Local School Backpack Programs

May Tue, 2020
Published In Corporate News

Paragould, Arkansas USA - Allen Engineering Corporation (AEC) is dedicated to its community and gathered donations from associates, customers, and industry friends through hat sales during the COVID-19 pandemic.

On Friday, May 15, 2020, representatives from Greene County Tech and Paragould school districts gathered at the Allen Engineering Headquarters to receive the donations. These donations provide food for hungry children on the weekends when other resources are not available. These donations assist in providing meals to students during school shutdowns.

AEC is a family-owned, American provider of high-quality equipment that is sold and rented through a network of dealers and rental centers around the world. The company is headquartered in Paragould, Arkansas and designs, engineers, manufactures and markets concrete and related equipment with a number one goal of Total Customer Satisfaction.
