Allen Engineering Receives Accumulative Safety Award for Three Years Without Lost Time

Allen Engineering Corp. was awarded the Accumulative Safety Award on Thursday, August 29, 2019 for having worked three years without a lost day away from work.

The Accumulative Safety Award is an high achievement for any company. In the past twenty-five years only 688 of these awards have been given, and in 2019 only two other awards have been given.

“The employees of AEC have volunteered their time and efforts to make our company a safe place to work, and I am very proud of each and every one of them for all their hard work to continuously improve safety at AEC,” said Suzie Hall, AEC HR / Safety / Compliance Manager.

Ralph Hudson from the The Arkansas Department of Labor and Licensing along with Paul Hansen from the Arkansas Workers’ Compensation Commission presented the award to the employees of AEC during a Safety Celebration that was held to congratulate the employees.

Allen Engineering Corporation (AEC) is headquartered in Paragould, Arkansas USA. The company designs, engineers, manufactures and markets premier concrete and related equipment that solves professional contractor’s major quality and productivity issues on their jobsites.

AEC is a family-owned, American provider of high quality equipment that is sold and rented through a network of dealers and rental centers around the world. For more information, visit the AEC website at www.alleneng.com.
