Product Spotlight: HDX760 Hydraulic Riding Trowel

December Mon, 2016
Published In Newsletters

This new Allen Hydraulic Riding Power Trowel truly stands alone in the industry with the built-in 'Intelli-Power' system that controls both the hydraulics and the engine operation.

This new Allen Hydraulic Riding Power Trowel truly stands alone in the industry with the built-in 'Intelli-Power' system that controls both the hydraulics and the engine operation. With 'Intelli-Power' the 74hp T4F Hatz diesel engine and the Bosch-Rexroth hydraulic components actually talk to each other to ensure maximum performance and safety at all times. This results not only in unequaled performance and safety protection for these very expensive and critical engine and hydraulic components, but also much longer operating life expectancy.

HDX760STANDARD FEATURES & BENEFITS:

- Tier IV Final turbo charged Hatz 74 hp diesel engine
- Two 57.6" diameter, 6-blade rotors with 145 rpm max rotor speed
- Premium Bosch-Rexroth hydraulics system
- Two point lifting system
