They maintain a complete inventory of Allen Equipment as well as a rental fleet of ride-on and walk-behind power trowels, concrete buggies and other products that concrete contractors use daily. They are also a factory authorized service center for Allen Equipment. Throughout the years, ConQuip Technologies has consistently been a top performer for Allen Engineering. They were a pioneer of ride-on power trowels, selling over 400 machines in their trading area.

ConQuip/Superior is family owned and operated with three locations and are a valued component of Allen Engineering's dealer network. Allen Engineering is very proud to partner with this hard working team and we look forward to a solid future.
