Kay Potter // Assembly Buyer/Planner

Kay Potter, from nearby Piggott, AR, started at AEC over seventeen years ago and hasn't looked back.

Kay started out packaging and shipping small parts orders in the warehouse where she served for 13 years, and is now an purchasing agent and planner for AEC. Kay loves the people she has worked with and had this to say when asked about her time at AEC, "I have learned a great deal over the years, and you can't always control the cards that are dealt to you in life, but as long as you trust in God, and keep the faith, everything will work out."

In her spare time, Kay says she loves to spend time with her four grandkids, as well as two great-grand babies. She also enjoys gardening and spending time with her husband, Jerrell. Both of her children, Jamie and Nina, have also worked for Allen Engineering in the past.

Thank you Kay Potter for your outstanding service!

Bet You Didn't Know: Kay is the third youngest of 12 siblings.
