Allen Engineering Adds New Electric Magic Screed to Concrete Finishing Product Lineup

July Fri, 2021
Published In Concrete Equipment News

Paragould, Arkansas USA - Allen a leader in professional quality concrete placement, finishing, polishing, and paving equipment, announced the debut of the new E-Screed by Magic Screed®. The E-Screed has an electric-powered design with the same power and performance as the original Magic Screed®.

The new E-Screed is fast and easy to use, and its high-frequency screed vibration provides uniform distribution over the entire blade length - enhancing the structural integrity of the concrete through consolidation.

The E-Screed by Magic Screed® comes with a harness that is designed to fit the operator comfortably and is fabricated with durable, easy-to-clean material for use on the most demanding job sites.

E-Screed standard features include:

- 1.5hp 40-volt lithium-ion battery engine
- Vibration speeds up to 7,500 rpm
- Adjustable handles
- Consolidation depth up to 6"

- Battery unit backpack
- Accepts the standard Magic Screed® blades (4' to 16' widths)

AEC is a family-owned, American provider of high-quality equipment that is sold and rented through a network of dealers and rental centers around the world. For more information, visit the AEC website at www.alleneng.com.
