Allen Engineering Introduces New Triple Roller Tube Paver to Paving Offering

July Wed, 2021
Published In Concrete Equipment News

Paragould, Arkansas USA - Allen a leader in professional quality concrete placement, finishing, polishing, and paving equipment, announced the debut of their newest Triple Roller Tube Paver. The model 75 Triple Roller Tube Paver (TRTP) is a lightweight, economical roller tube paver that comes with an electric start, powered by a Honda engine.

The 75TRTP is the newest roller tube paver in the Allen lineup. It is equipped with your choice of tube length, which allows for a variety of concrete pours to best serve the contractors' project needs.

75TRTP standard features include:

- 22hp Honda IGX700 air cooled gasoline engine
- Lightweight and economically efficient
- Available in tube lengths of 14’ through 24’ (2' increments)
- 6” or 8" roller tube diameter options

- Holds a 50-gallon water tank

Allen Engineering Corporation (AEC) is headquartered in Paragould, Arkansas USA. The company designs, engineers, manufactures and markets concrete equipment with a number one goal of Total Customer Satisfaction.

AEC is a family-owned, American provider of high-quality equipment that is sold and rented through a network of dealers and rental centers around the world.
