Introducing John Ware as the New AEC Logistics Manager

August Fri, 2021
Published In Corporate News

Paragould, Arkansas USA – We are excited to announce the promotion of John Ware. John has recently accepted the role as Allen Engineering Corporation's (AEC) Logistics Manager.

John began his journey with Allen Engineering just three short years ago. In his time with Allen Engineering, John has worked as an AEC inventory specialist and as a technician for our Quality and Cost department. As part of his new position, he will be overseeing the day-to-day shipping and receiving operations.

John will be in direct communication with our sales and product support team members to effectively meet the needs of our customers. As a result of his extensive knowledge of our product offering, cost savings techniques, and customer satisfaction, we are confident that he will succeed in his new role.

John has demonstrated his ability to lead by example and has established himself as a valuable member of our team here at Allen. We consider ourselves fortunate to have him on board, and we look forward to being a part of his future success in this new role. We know that his contributions will continue to better us as an organization and to the overall success of the Allen Engineering Vision of being the premier, global provider of concrete equipment solutions for professional contractors.

Allen Engineering is a small, family-owned and operated business in the heart of Paragould, Arkansas. The company employs over 130 Northeast Arkansas residents to help design, build, market and sell the Allen Engineering product offering that is comprised of placing, finishing, polishing, and paving equipment.
