Published In Newsletters

The all new Allen AT14S rubber track concrete buggy delivers excellent performance and precise maneuverability. Equipped with a 90-degree dump angle and 180-degree pivoting dump this buggy can place your material exactly where you need it.

AT14S STANDARD FEATURES & BENEFITS:

- 14 cubic foot steel bucket ensures long lifespan while hauling even the toughest materials
- Cover fully encloses the engine in order to protect it from debris and maximize engine life
- Narrow 33.3” width allows buggy to fit through 36” doors
- The bucket pivots a full 180° for precision loading and unloading on uneven surfaces
