Attending New Shows

This upcoming October Allen Engineering Corp. (AEC) will be participating for the first time in the Hardscape North America Expo and The Green Industry & Equipment Expo.

The expos will provide a great opportunity to showcase our expanding line of Allen power buggies and our compaction equipment. We believe this expo will help us expand into the landscaping and hardscape contractor markets.

The expos will be held at the Kentucky Expo Center in Louisville, KY from October 18th - 20th. AEC will be in Booth 592.
