Allen Engineering Introduces New Mechanical Super Pro Rider – MSP465

January Fri, 2023
Published In Concrete Equipment News

Paragould, Arkansas USA - Allen a leader in professional quality concrete placement, finishing, polishing, and paving equipment, announced the debut of their newest Mechanical Super Pro Rider. The rider model 465 Mechanical Super Pro (MSP) is a compact eight-foot rider, that comes with electric start, powered by a Kubota engine.

The MSP465 comes equipped with a liquid-cooled gasoline engine, a 10-gallon aluminum fuel tank and assisted steering. This machine allows for the reduction in operator fatigue and longer run times. This rider produces excellent torque even at high rotor speeds, which makes it excellent for panning or finishing on the job.

MSP465 standard features include:

- 57 hp Kubota WG1605 liquid-cooled gasoline engine
- Push to spray foot pedal
- Aluminum 10-gal tank
- Push to start
- Assisted manual steering
- 170 RPMs

Allen Engineering Corporation (AEC) is headquartered in Paragould, Arkansas USA. The company designs, engineers, manufactures and markets concrete equipment with a number one goal of Total Customer Satisfaction.

AEC is a family-owned, American provider of high-quality equipment that is sold and rented through a network of dealers and rental centers around the world.
