Allen Engineering Announces Winner of their 60th Anniversary Special Edition Riding Trowel

January Fri, 2024
Published In Corporate News

Paragould, Arkansas USA - Allen Engineering Corporation (AEC) is a highly reputable and family-owned company specializing in high-quality, innovative equipment for concrete placement, finishing, polishing, and paving. We are thrilled to congratulate Patrick Morton

from County Line Concrete, LLC in Cuba, NY, for winning the exclusive 60th Anniversary Special Edition MP245 Riding Trowel by Allen Engineering Corporation (AEC). This unique equipment was presented to Patrick during our 60th Anniversary Reception at the 2024 World of Concrete.

As part of our 60 Years of Concrete Innovation celebrations, AEC kicked off the festivities at the 2024 World of Concrete with a 60th Anniversary Reception and exciting giveaway. The reception was attended by over 400 guests, featuring the premier of the AEC 60th Anniversary video, delightful food and beverages, and an atmosphere filled with excitement. To conclude the evening, Jay Allen, CEO of AEC, proudly announced Patrick Morton as the deserving winner of this prestigious prize.

Patrick Morton is now the proud owner of the AEC 60th Anniversary Special Edition MP245. This compact hydraulic power steering riding trowel embodies the cutting-edge features found in our larger models, combined with the renowned durability for which Allen equipment is recognized. To make this giveaway even more exceptional, we incorporated red, white, and blue elements as a testament to our American-made heritage.
