PRO436DF

The Pro436DF is equipped with all the long-lasting precision engineered components used in our gas powered Pro436, but with the added feature of running under propane power. Our Pro436DF is a perfect fit for contractors working in areas where gas engines are restricted but can easily be switched propane to gas in areas where gasoline is accepted. Every Allen Pro436DF comes equipped with a propane tank.

Fine pitch handles use a twist action to control blade pitch from flat to 28° and anything in between.

Rapid pitch handles use a ratcheting action to provide easy adjustment with the push or pull of a lever.

COMING SOON! PRO446X

Coming soon is the most powerful walk-behind trowel featured in the Allen line-up. The Pro446X will feature the widest RPM and blade adjustment we've ever offered.

FOR PRICING AND SPECIFICATIONS, PLEASE CONTACT SALES@ALLENENG.COM.

TROWEL BLADES

Allen Engineering offers a complete line of finish blades, combination blades and clip-on float shoes for your walk-behind or ride-on power trowels. We use high quality steel or composite plastic with six high strength rivets to maximize blade life. For the flattest floors, trust only Allen Finishing Blades. And, Allen Blades fit most other brands of walkers and riders.

STEEL FLOAT PANS

Allen Engineering pioneered the use of floating discs (or pans) on riding trowels in 1989 and Allen® Pans remain today the finisher's choice when high FF Numbers are specified on a concrete floor. Allen's flat pan tolerances cut bumps and fill low spots in the concrete floor. Insist on Allen® Steel Pans for your Allen Riders and Walk-Behinds. Made to the same exacting tolerances as the trowels themselves, nothing finishes better.

Safety Catch Pan

Clip-On Pan
