RP245

The RP245 riding polisher, with power steering, was designed with the high volume concrete polisher in mind. This riding trowel comes as designed to achieve high rotor speeds to achieve high torque while polishing. It also comes equipped with standard features power steering control and dolly jacks that ensure transportation indoors can be done with ease. This design is also built on our popular edging riding trowel frame to allow contractors to get extremely close to the wall while polishing.

Power steering control system to increase maneuverability.

Continuous spray option for consistent application.

Cruise Control to maintain consistent rotor speed.

Rear and front spray nozzle selector.
