

# RTPRO

## Take the Work Out of Floor Profiling

RTPro delivers fast, reliable FF/FL data with less effort and greater consistency.

### A Smarter Way To Measure Floor Flatness

RTPro is a motor-driven concrete floor flatness and levelness profiler used after concrete placement to evaluate floor quality. Instead of manually pushing or walking a profiler, operators drive the RTPro across the slab, collecting accurate FF/FL measurements. Data is captured digitally and processed through a mobile app to produce structured, ASTM E1155 (12") compliant reports that determine whether a floor meets project specifications.

### Power & Runtime Performance

The system targets 6+ hours of total runtime or up to 10,000 linear feet of coverage, depending on operating conditions. When operating with all systems powered on and the drive motor engaged, a single charge provides approximately 3 hours and 20 minutes of continuous operation, covering up to 5,525 feet (1,684 meters). This allows operators to profile large floor areas efficiently recharging.

F-Numbers Verified, Fast.

### Everything You Need, And More.

- **Save Time. Move Faster.** – Measure flatness in real time without slowing the job down.
- **Dead-On Accuracy.** – Get precise data you can trust to hit spec every time.
- **Data That Delivers.** – Export and use your results across platforms with ease.
- **Simple Control. Smart Tech.** – Run it all from an integrated mobile device.
- **Built to Evolve.** – Continuous updates keep you on the cutting edge.
- **Compact. Ready to Roll.** – Packs into a durable case for easy transport to any jobsite.

Reduced physical strain on operators

- ✓ Less physical effort
- ✓ Lower fatigue

Consistent, repeatable measurements with less human variability

- ✓ Reduced operator influence
- ✓ Repeatable results

Control made simple with mobile app

- ✓ Instant reports
- ✓ Simple data readouts
- ✓ Remote control

Fastest type 1 F-number device on the market

- ✓ Motor-driven operation
- ✓ 2-3x faster than walking profiles

# RT PRO

## Battery Performance

- ✓ Battery level visible on top cover 
- ✓ Up to 6+ hours of runtime\* 
- ✓ Covers over 5,500 ft per charge 

Powered by a built-in mobile device. Run your machine, capture data, and transfer it effortlessly for reporting and use across platforms.
